

## iDevAffiliate Extension For Wishlist Member

This extension will automatically integrate a Wishlist Member website with iDevAffiliate. Things to note with this release:

1. The Sale Amount for each membership level is set in the extension configuration.
2. This release allows for per product commission by level. When these amounts are set, the commission amount will override the commission rate set in iDevAffiliate.

### Installation of iDevAffiliate Extension For Wishlist Member

1. Download the extension to your computer
2. Using an unzip program like winzip or 7zip (<http://sourceforge.net/projects/sevenzip/>), unzip the downloaded file.
3. Locate the file idevaffiliate.php in the unzipped files
4. Using FTP (or CPanel File Manager) upload idevaffiliate.php to wp-content/plugins/wishlist-member/extensions
5. Login to wp-admin and in the admin panel navigate to:
  - a. WL Plugins -> WL Member
  - b. In the sub menu, select extensions

**Step 1. Enter your iDevAffiliate URL**

iDevAffiliate URL: http://yoursitename.com/idevaffiliate  
(ex. http://www.yoursite.com/idevaffiliate/)  
Leave blank to disable

**Step 2. Enter commission levels for each membership level**

Membership Level	Initial payment	Recurring payment	Commission Amount	Commission Amount Recurring
1	0.00	0.00	0.00	0.00
2	0.00	0.00	0.00	0.00
3	29.99	0.00	2.99	0.00
4	0.00	0.00	0.00	0.00

Save Settings

Annotations:

- Yellow box around "Initial payment": These columns will use the standard iDev commission
- Yellow box around "Recurring payment": These columns will define the commission to award
- Yellow box around "URL to your idev install": URL to your idev install
- Yellow box around "Initial commission": Initial payment
- Yellow box around "Recurring commission": Recurring payment

Configure the iDevAffiliate extension as follows:

1. iDevAffiliate URL is the link to your iDevAffiliate installation. Use the full url including the http://
- Note:** To disable this extension, leave this field blank
2. For each membership level, there are two amounts to enter.
  - a. The first column (labelled Amount) is the initial fee for the level. Using this field, commission will be recorded according the iDevAffiliate Commission levels
  - b. The 2nd column (labelled Recurring Amount) is the fee that will be charged for ongoing billing. Using this field, commission will be recorded according the iDevAffiliate Commission levels
  - c. The 3rd column (labelled Commission Amount) is the commission that will be recorded in iDevAffiliate for the level (this overrides the iDev commission levels)

- d. The 4th column (labelled Commission Amount Recurring) is the commission that will be recorded in iDevAffiliate for the level for ongoing payments (this overrides the iDev commission levels)

**Note:** Currently these fields are used only for iDevAffiliate connection. Payment buttons must still be created. Only enter amounts in Columns 1 and 2 or Columns 3 and 4.

3. Save the settings by clicking **Save Settings** button

### Configure iDevAffiliate for WLM

1. Login to iDevAffiliate administration

2. Click on Cart Integration -> Shopping Cart Integration Wizard

The screenshot shows the iDevAffiliate 6 administration interface. At the top, there's a navigation bar with links for 'Admin Home', 'Print Reports', and 'Search'. Below the navigation bar is a main menu with several dropdowns: 'Setup & Tools', 'Cart Integration', 'General Settings', and 'Templates'. The 'Cart Integration' dropdown is currently active, as indicated by its orange background and the highlighted 'Shopping Cart Integration Wizard' option. A red circle is drawn around this highlighted option. On the left side, there's a sidebar titled 'Affiliates' with various management links. The main content area contains sections for 'Integration Profiles & Instructions', 'PayPal Recurring Commission Logs', and 'General Settings' and 'Cart Integration' tabs.

3. Click on the Cart Or Merchant to Integrate drop down and select Wishlist Member - for Wordpress

#### Built-In Cart Integration

Check to see if the cart/checkout system you're integrating with is in the drop-down menu. If given the option, always choose the shopping cart instead of the merchant account.

Example: If you're using PayPal payments with PHP Audit, choose PHP Audit. Not PayPal.

The screenshot shows the 'Cart or Merchant To Integrate' dropdown menu. The menu lists various shopping carts and checkout systems. A red circle highlights the 'WishList Member - for WordPress' option, which is currently selected. Other options visible in the list include PHPLicengine, Pinnacle Cart, ProStores, RegOnline, RegPay, SecureNetShop, SegPay, ShopSite, SubHub, SunShop, SWREG, ViArt Cart, VirtueMart, Volusion, and Zen Cart.

**4. Click on Continue To Next Page**

The screenshot shows the iDevAffiliate 6 Admin Panel. At the top, it says "Logged In: admin | Logout" and has links for "Admin Home", "Print Reports", "Search", and "Export Data". Below that is a navigation bar with tabs: "Setup & Tools", "Cart Integration", "General Settings", "Templates", and "Add-On Modu". Under "Cart Integration", there's a section titled "Shopping Cart Integration Wizard" with the sub-section "Built-In Cart Integration". It includes instructions about integrating with a shopping cart/checkout system and a note about choosing the shopping cart instead of the merchant account. A red circle highlights the "Continue To Next Page" button at the bottom right of the integration form.

iDev Affiliate is now configured for Wishlist Member

### Create Payment Buttons

Create a payment button for your membership level in the shopping cart or payment processor you are using.

No additional changes are required for this integration.

### Testing your implementation

1. Using an affiliate link from your iDevAffiliate installation, make a payment
2. Complete the registration process for Wishlist Member
3. Login to your iDevAffiliate Admin panel.

### Pending Commissions

If iDevAffiliate is setup to approve commissions, click on the **Pending Commissions**
